

Marters & Co. APPLIED INTELLIGENCE

Design blueprint

The rules behind the company deck: colour, type, layout, and the components they build. Follow these and anything new will sit alongside the existing material without looking bolted on.

PRINCIPLE 01

Plain language. Short sentences, active voice, concrete nouns.

PRINCIPLE 02

Quiet surfaces. Two grounds only — paper and navy. Brass is the single accent.

PRINCIPLE 03

Generous scale. Large type, wide margins, one idea per surface.

01 The wordmark

One wordmark, set in Cormorant Garamond with a brass ampersand. It is typeset, not drawn — so it can be rebuilt anywhere the font is available.

Marters & Co. APPLIED
INTELLIGENCE

Primary lockup on paper. Navy word, #8A6A2F ampersand, descriptor in mono grey.

Marters & Co. APPLIED
INTELLIGENCE

On navy. Paper word, #C9A86A ampersand, descriptor in #8E9AAE.

Marters & Co.

Wordmark alone, where the descriptor would crowd.

Monogram, outlined or filled. Avatars and small squares only.

Marters & Co.

Clear space equals the cap height of the M on all four sides.

SPECIFICATION

Face	Cormorant Garamond, weight 500 (400 above 60px).
Tracking	+0.03em. Never tighter, never condensed.
Case	“Marters & Co.” — initial capitals, full stop after Co. Never all caps.
Ampersand	Always brass, always the only coloured glyph.
Descriptor	IBM Plex Mono, caps, +0.16em, baseline-aligned, at roughly half the wordmark size.
Min. size	16px on screen, 10pt in print. Below that use the monogram.

NEVER

Set it in Public Sans or any other face.

Colour the whole wordmark brass.

Place it on a photograph or a mid-tone fill.

Add a box, rule, shadow or rounded badge around it.

Stack the descriptor under the word, or write “Marters and Co”.

02 Colour

Two grounds, one accent, one ink. Never introduce a fourth hue; if something must be distinguished, change weight or surface, not colour.

 Paper #F6F5F0 Default slide and page ground.	 Navy ink #14243C All headings on paper; ground for emphasis surfaces.	 Brass #C9A86A Accent <i>on navy only</i> — rules, numerals, eyebrows.	 Brass dark #8A6A2F The same accent on paper. Passes 4.5:1.
--	---	--	--

SUPPORTING — ON PAPER

	#FFFFFF	Card fill
	#3F4756	Body text
	#63697A	Footers, labels
	#E0DDD2	Card border
	#D6D2C6	Hairline rule

SUPPORTING — ON NAVY

	#CCD4E0	Body text on navy
	#E3E8EF	Chip text
	#8E9AAE	Footers on navy
	#3C4D68	Border on navy
	#A8874F	Links

CONTRAST RULE

Body text holds 4.5:1 against its ground. Use #C9A86A for brass on navy and #8A6A2F for brass on paper — never the reverse. No tinted or half-opacity text.

03 Typography

Three faces with strict jobs. Public Sans carries everything a reader must understand; the other two are furniture.

Aa

Public Sans

Headings and body. Weights 300–600. Chosen for legibility for non-native English readers.

Aa

IBM Plex Mono

Eyebrows, step numbers, footers, licence line. Uppercase, letterspaced. Never body copy.

Aa

Cormorant Garamond

Wordmark and monograms only. Never a heading, never a sentence.

SLIDE TYPE SCALE – SIZED FOR A 1920 × 1080 CANVAS

ROLE	FACE / WEIGHT	SIZE / LINE / TRACKING	USED FOR
Cover headline	Public Sans 400	112 / 1.06 / −.025em	Cover only
Slide title	Public Sans 400	84–98 / 1.08 / −.02em	One per slide, max 2 lines
Card / item title	Public Sans 500	46–52 / 1.15 / −.01em	Cards, numbered items
Lead paragraph	Public Sans 400	36–38 / 1.45	Standfirst under a title
Body	Public Sans 400	29–32 / 1.45–1.5	Card and list copy
Eyebrow	Plex Mono 400, caps	24–26 / .18em	“03 / The first step”
Footer	Plex Mono 400, caps	24 / .12em	Licence line + page number
Statistic	Public Sans 500	124 / 1 / −.03em	One number per tile

Floor: nothing below 24px on a slide. For other media, divide these by 3 for a desktop page (112 → 37px) and keep the ratios.

04 Layout

Every slide is the same frame: eyebrow, title, one content band, footer pinned to the bottom.
Content changes; the frame never does.

Canvas	1920 × 1080, fixed.
Margins	110 left and right, 96–100 top, 80 bottom. Nothing crosses them.
Eyebrow	Top left, section number then name: “05 / Proof”.
Title	26–40 below the eyebrow, capped near 1560 wide. Optional standfirst right-aligned beside it.
Content	One band: a 3-or 4-column card grid, or a two-column numbered list. Gaps 40 between cards, 64 × 120 in list grids.
Footer	Pushed down with margin-top:auto: licence line left, slide number right.

RHYTHM

Navy slides mark the turns: cover, the first step, ownership, the close. Everything between is paper.

DENSITY

Max 4 items in a band. Card copy stops at 3 lines; captions at 2.

GEOMETRY

Square corners everywhere. Circles only for monograms. No shadows, no gradients.

05 Components

Five patterns cover the whole deck. Shown here at document scale; slide values are in brackets.

CARD — WHITE ON PAPER

01 · DISCOVER

First, we listen.

Body copy runs to three lines at most, then stops. The card carries one idea.

Outcome line, one sentence.

Padding 18–20 [42], 1px #E0DDD2 border, outcome line divided by a hairline and pinned to the bottom.

NUMBERED LIST ITEM

01 Manual work

Teams type the same information into more than one system, every day.

Rule above, mono index in brass, title and one sentence. Two per row.

STATISTIC TILE — NAVY

7h

of manual work removed from every export.

One number in brass, one caption of two lines. Never a unit label above the figure.

CHIPS & FOOTER

EX-AMAZON

EX-UNICEF

MSC DATA SCIENCE

MARTERS & CO. · DIFC LICENCE NO. CL1435111

Chips are outlined, never filled, and sit in one row. The footer appears on every slide except the cover.

06 Words

The audience includes owners reading in a second language. Write so the meaning survives a fast read.

DO

Short sentences. One idea each.

Active voice: “We build”, not “it will be built”.

Real numbers with their unit: “7 hours per export”.

Name the thing: invoice, report, delivery note.

Sentence case in titles; capitals only in mono labels.

AVOID

Idioms and metaphors — they do not translate.

Unexplained jargon: ERP, workflow, pipeline, WPS.

Vague scale words: seamless, robust, world-class.

Percentages without a base number.

Emoji, exclamation marks, and stock imagery.

Fixed elements: the licence line DIFC licence no. CL14351 on every slide footer, and hello@martersandco.com as the single point of contact.

END OF BLUEPRINT
